

NABIS

Premiers the **SPORTS CONCUSSION Clinic!**

Sports concussions can be very serious yet they are often missed and undiagnosed. **Post-concussive syndrome can effect people for years.** Louis De Beaumont's team at the Centre for Neuropsychology and Cognition, Universite de Montreal "found the first evidence that athletes who suffer concussions show mental and physical declines more than 30 years later." Concussion; "the effects far outlast the initial dizziness, disorientation and confusion."

Margaret Munro, Canwest News Service 01/27/2009

Saturdays: 9:00 am to Noon

May 2, May 30, Sept. 5, Oct. 3, Nov. 7 and Dec. 5
